

Processing of personal data in the services of the European Institute for Crime Prevention and Control, affiliated with the United Nation

The European Institute for Crime Prevention and Control, affiliated with the United Nation processes personal data in order to comply with a legal obligation or, in certain situations, to perform a task carried out in the public interest or based on your consent. Government ICT Centre Valtori and its subcontractors provide ICT services to the European Institute for Crime Prevention and Control, affiliated with the United Nation.

Your data protection-related rights

You have the right to request access to your personal data, rectification or erasure of your personal data, and restriction of their processing. Moreover, you have the right to object to the processing of your personal data in certain situations. Instructions on how to make a request can be found [here](#) (in Finnish).

[The Data Protection Ombudsman](#) monitors compliance with the data protection legislation in Finland.

More information about [data protection rights](#) at the website of the Data Protection Ombudsman's website.
